Application No. 09/658,638  
Patent No. 7,190,817

DECISION GRANTING PTA LETTER

This decision is in response to Patentees "LETTER REGARDING PATENT TERM ADJUSTMENT PERIOD" FILED ON March 19, 2007 requesting that the USPTO review the PTA determination at the time of the issuance of the patent in light of the reply date to the notice to file missing parts. The Office thanks patentees for their good faith and candor in bringing this matter to the attention of the USPTO.

Patentee's request is **GRANTED**. The Office will *sua sponte* issue a certificate of correction reflecting an adjustment of 1139-days rather than the 1178-day amount printed on the front of the patent. The Office will also adjust the PTA calculation reflected in PAIR to reflect this decision.

If patentee disputes this determination, patentee may file a reply within **thirty days or one-month** whichever is longer. No extensions of time under 37 CFR 1.136.

Patentee argues that the Office erred in failing to take into consideration the failure to meet the requirements of 37 CFR 1.704(b) in that applicant failed to respond to the Office's notice to file missing parts within three months.

Patentee's argument is persuasive. Upon review, the record clearly reflects that the applicants responded to the Office's notice (mailed on October 23, 2000) on March 5, 2001. This amounted to thirty-nine (39) days beyond three months. Accordingly, the correct determination at the time of the issuance of the patent is reduced by thirty-nine (39) days to reflect a determination at the time of the issuance of one thousand one hundred and thirty-nine (1139) days.

After review of this decision, this application will be forwarded to the certificate of correction branch for a prompt issuance of a certificate of correction. The certificate of correction branch will wait the longer of thirty-days or one-month and then issue such certificate of correction if no reply.

Since this letter is considered a letter of good faith and candor, the USPTO will not assess a
